PRICE 5c COPY

THIS is an appeal for every housewife, every buyer of goods at Hope stores, to meet at the city hall at 10 o'clock Friday morning.

The merchants held their meeting Wednesday. They are signing up under the National Recovery Act.

Friday morning the consumers are to meet. Your country has called you—you should be there.

President Roosevelt says that to get our United States out of the depression we must do certain things.

We must do these things as employers and as employees, as merchants and as shoppers.

The stores must shorten the working-week of their

Prosperity Is Up to You!

clerks, so they will be forced to take on new wage-earners. They cannot pay less for that short week than the minimum wage fixed by the government.

This is the retail trade's share of the war against depression.

To win that war, all the stores must co-operate under the NRA.

If they don't display the NRA emblem you as a shopper must do something about it.

This is the president's appeal—prosperity is up to you!

The federal government is forcing a shorter week in the industries. Wages are advancing. Hope will have larger payrolls.

The government's program for cotton has doubled the

price since Roosevelt took office. An advance payment of \$165,000 will reach Hempstead county farmers this month, paying debts, putting money into circulation, giving tangible evidence of that renewed confidence which all of us have felt in our country for the last several months.

The government can regulate industry. It can curtail cotton production. But the co-operation of the retail trade is something we must secure ourselves.

That's why this meeting has been called for 10 o'clock Friday morning at Hope city hall.

Every housewife, every shopper, should be there.

As the president says—the country is in your hands!

SHOPPERS' RALLY ON FRIDAY

City Completes Straightening Plans on 3d Street

Second Permit Is Given S. L. Murphy for Service Depot

With Reader Permit, It Widens Street by 50 Feet

CUTS DOUBLE TURN

Traffic Hazard on No. 67 to Be Removed Immediately

The issuance of a permit by the city council Tuesday to S. L. Murphy for construction of a gasoline filling station at Third and Shover streets means the straightening out of a double-turn on Highway 67, which for years has created a traffic hazard.

Provisions of the permit were similar to those issued to Miss Laura Reader, who is erecting a filling station on the northwest corner of the intersection, giving the city 25 feet right-of-way over her property.

Under the provisions of Mr. Murphy's permit the city will be given 25 feet right-of-way on the southeast corner. This would mean 50 feet additional width to Third street, changing the present double-turn to a width so traffic can negotiate it without danger.

Granting of a permit for construction of a filling station at Third and Laurel streets to H. O. Pitchard was brought up during the meeting of the council, but was not passed. Provisions of the permit will be discussed at the next meeting.

All monthly bills were ordered paid. Bonds of \$1,000 each were submitted by Harry and Ernest Shiver, plumbers. The council approved the bonds.

Chief of Police Clarence Biker filed his monthly police report, showing 31 arrests. Fines assessed totaled \$194.50, of which \$55.50 was collected in cash. Street work by prisoners amounted to \$115.00.

Cash collected on corporation license during the month of July, the police report showed, totaled \$461.72.

Trash hauling amounted to \$71.00, bringing the total to \$532.72.

City auto license collections totaled \$397.50 up to Thursday morning.

Farm Prices Best in Over 2 Years

But Exchange Value Still Is Only 72 % of Pre-War Level

LITTLE ROCK.—Farm prices as of July 15, 1933, reached the highest average in Arkansas since July, 1931, Charles S. Bouton, government agricultural statistician for the state, announced Wednesday.

Generally poor crop prospects, further depreciation of the dollar, and expectation of large quantities of cotton being plowed up were some reasons for the increase, Mr. Bouton said.

However, since attaining the high average, prices have slumped somewhat toward the end of the month although dairymen in Little Rock have announced a 20 per cent increase in milk prices.

E. H. Reed, state Agricultural Extension Service economist, issued the following statement Wednesday concerning prices:

"Farm products as a whole in the United States in July averaged 76 per cent of pre-war, while price of things farmers buy averaged 105 per cent of pre-war. The exchange value or purchasing power, of farm products was thus 72 per cent of pre-war."

"Through passage of the agricultural adjustment act the administration at Washington is committed to a policy of raising prices of farm products until their exchange value for things they buy is the same as, or on a parity with pre-war."

Bulletins

ALBANY, N. Y.—(AP)—Threats to kidnap the wife of Edward J. O'Connell, prominent Democratic leader, or one of the three O'Connell brothers, uncles of the kidnapped John J. O'Connell, Jr., were received Thursday by the family. The threats were said to be re-tained at the mountain camp of Dan O'Connell, where several members of the family are staying.

CONWAY, Ark.—(AP)—Struck by lightning as he was on his way home from school, Olan Hare, 9, farmer's son, was found dead Thursday morning under a tree where he had sought shelter from rain Wednesday night.

Light Fire Truck Purchased by City

Equipment of Old Light Truck Put on New Dodge Chassis

A new Dodge 1½-ton fire truck to be used as a combination pumper and hose truck is being added to the Hope Fire department.

Original cost of the new truck will be approximately \$1,000, but when assembled will be equivalent to a \$4,000 piece of modern free-fighting equipment.

The body and a portion of the best equipment from the city's 16-year-old antiquated truck is being assembled on the new chassis. A new pumper and a booster tank will be purchased.

The new machine, weighing approximately 4,000 pounds less than the department's largest truck—which is a \$9,000 machine—will be used as a lead truck on runs to edges of the city.

Dred wheel will serve the purpose of keeping the machine from miring down in soft dirt. Firemen will obtain greater speed from a faster and lighter truck.

Instead of an excess amount of chemicals firemen will use water from the pumper, cutting down the cost of fighting fires.

The new truck was purchased from the Dodge factory at Detroit, Mich. It was driven to Hope by Fire Chief J. K. Sale, and Fireman Jimmy Embree. While on route to Detroit the two Hope men stopped at Chicago to visit the World's Fair.

In Detroit Mr. Sale and Embree were taken through the Dodge factory on a sight-seeing tour.

The new truck, modernly equipped, will be ready for service within the next six weeks, giving the city two pieces of up-to-date equipment.

FLAPPER FANNY SAYS:

REG. U. S. PAT. OFF.

The hour glass figure is up-to-the-minute.

Robinson Cautions Not to Speculate as in '29 Disaster

4,000 Greet Arkansan at Home-Coming in Little Rock

F. D. HAS DELIVERED Majority Leader Praises President for Performing His Pledges

LITTLE ROCK.—Arkansas paid homage to Senator Joe T. Robinson Wednesday night, and the senator responded by paying a glowing tribute to the leadership of President Roosevelt, saying that the "world is fortunate in having a man like Franklin D. Roosevelt as president of the United States."

The occasion was a homecoming celebration for Senator Robinson, held at Travelers Field at Fair Park, where more than 4,000 persons from many sections of the state gathered in honor of the return to Arkansas of the Democratic leader of the United States Senate.

Senator Robinson said that in an unprecedented short time, there has been a "literal and complete redemption of the platform pledges upon which the national Democratic party won its victory last November."

He called attention to the disastrous policy of indecision, and said that the speed with which President Roosevelt gathered the forces of reconstruction and recovery was unparalleled in human history.

"It is wise to recognize that there are dangers ahead," Senator Robinson said. "The expenditures of hundreds of millions in federal funds for destination relief threaten to break down the spirit of self-reliance among the needy."

Scores Stock Gambling

"The spectacle presented in recent days of wild and unrestrained speculation on the exchanges is both pitiable and contemptible," the senator said. "Have we forgotten, shall we so quickly forget the lesson of 1929 when millions of uninformed investors, some of them sacrificing their homes and other necessities for the gambler's chance of winning quick and easy profits, precipitated a disaster which will be repeated if the orgy of speculation now in progress continues and gathers volume? It is unsafe to participate in get-rich-quick schemes."

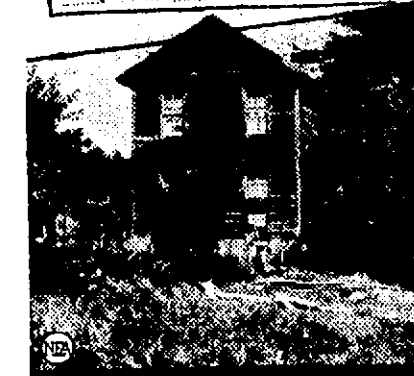

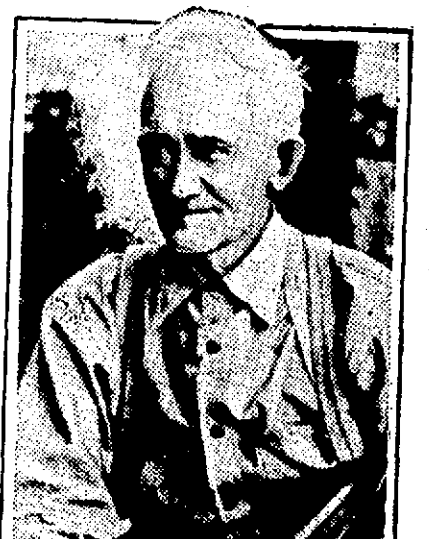

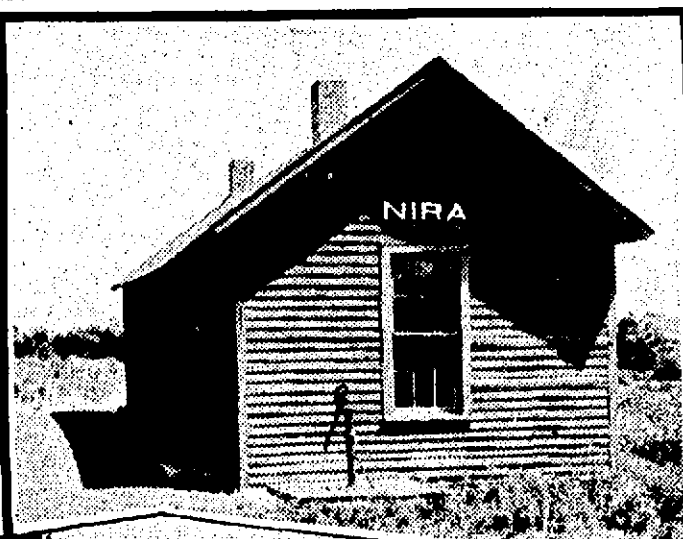

"No man, however bold or resourceful, can build a successful career on that foundation. Good old-fashioned labor, patient work with hand and brain, are the only sure reliance. The worst thing observable is the sign displayed in transactions on exchange and recklessness and ill-considered action are still the implement of rich and poor investors alike. The American people can look to the government for employment except in times of emergency. They must build their own fortunes and rely upon their own knowledge and skill. Those who have wealth, whether great or small, will as likely lose their fortunes in speculation on exchanges as in bets on the turn of the wheel or the dealing of the card."

Radical Remedies Needed

"The recent session of congress passed a stringent securities measure designed to protect the public against commerce in fraudulent stocks and bonds. The indications are that radical remedies must be resorted to, to safeguard the business and the nation and the happiness of the people against foolish and unrestrained so-called transactions on the market even if it becomes necessary to outlaw contracts on margin."

"We passed a banking law providing for the separation of banks from their security affiliates so that depositors' funds may not improvidently be invested by trustees. We provided for insurance of bank deposits in limited amount, and if the present arrangement proves inadequate further steps must be taken for the people of the United States can not expect their business to prosper if their funds in banks are not safeguarded."

NIRA a Depot Before 'New Deal'

City of Denver Is Flooded by Creek

Cherry Creek, Terror of Pioneers, Breaks Loose Again After Years

DENVER, Colo.—(AP)—Cherry creek, which several times destroyed pioneer Denver and which for many years has been confined within concrete walls, swept over its barriers Thursday and inundated the lower section of the city after destroying two bridges.

The flood, the result of a cloudburst Wednesday night, was known in time to prevent loss of life.

City police raced through the Denver districts liable to be flooded and routed out residents, ordering them to leave for higher ground.

Advisory Board on U. S. Works, Meet

Will Be Ready Soon to Consider Federal Projects for State

LITTLE ROCK.—(AP)—The new federal Public Works Advisory Board for Arkansas met here Thursday and organized with the elections of E. C. Horner, of Helena, as chairman; John S. Parks, Fort Smith, vice-chairman; and Hayley Bennett, Little Rock, as secretary.

They expressed the belief that the board would be ready to start functioning within a few days.

Bennett said the board discussed briefly the question of proposed state legislation for co-ordination with the federal program, and expressed the hope that such measures as seem necessary would be enacted without delay.

Governor Futrell has indicated he will include this subject in his call for a special session.

U. S. Road Money Asked by Counties

Judges' Association Wants Cut of 8-Million Fund

LITTLE ROCK.—(AP)—Members of the County Judges association in a special session here Thursday voted to request Governor Futrell and the State Highway Commission to allot to the counties one-half of the 25 per cent of emergency federal aid funds set aside for "feeder" highways.

This state's share of emergency highway funds is \$7,750,000. One-fourth of the federal allotment has been set aside for "feeder" lines, which the county judges contend should be spent for county roads.

The amount they are contending for would be something over 1 million dollars.

3 Held for Liquor in 4th Raid Here

Bail of \$500 Each Is Fixed After Seizure of Still

Three men were at liberty Thursday under \$500 bail each following the fourth liquor raid within a week by Deputy Sheriff Allen Shipp and Prohibition Agents Earl May and Charles R. Flynn.

The three taken in the latest raid are J. E. (Preacher) Tuttle, white, and S. L. Neal and Earma Mack, negroes. The three were arrested at the still, which was fired up and in operation.

Location of the still was in the southwest corner of Nevada county.

Each furnished \$500 bail when arraigned Wednesday afternoon at Texarkana before a United States prohibition commissioner.

Approximately 350 gallons of mash was destroyed. Three gallons of whisky was seized.

Mrs. Thomas' Mother Buried in Kentucky

Funeral services for Mrs. W. D. Meyers, mother of Mrs. Ludy Thomas, proprietor of the Ladies Specialty Shop of this city, were held Thursday afternoon at Glasgow, Ky. Mrs. Thomas had left Hope Sunday to be at her mother's bedside.

Iowa's Boom Town of 90's Is in Spotlight

Nira Rose to Fame When Iowa Went Democratic, Helping Put Roosevelt in Office

NIRA, Ia.—(NEA)—To at least 20 people in the country, the magic term NIRA that everybody is learning to say these days, is an old story. Those 20 are the population of this Iowa village of nine houses which was named Nira 55 years ago when its first house was built.

Nira doesn't mean National Industrial Recovery Act to them, or at least it didn't until a few weeks ago. It just meant home, the only town in the United States of that name, according to the Postal Guide.

This town, with its grass-grown railroad track, is general store and postoffice at the intersection of two dirt roads in Lime Creek township, Washington county, is normally Republican. But it expects to gain by the New Deal, just the same.

Prescott Stores on 58-Hour Week

To Extend Saturday Night Closing Hour to 9 O'Clock

FRESCOTT, Ark.—The time for closing stores on Saturday will in all probability be changed at 9 o'clock, according to a statement by Dan Pittman, president of the Chamber of Commerce.

At a meeting held Monday night of all merchants it was voted to close at 7 o'clock on Saturday night, but due to protests, Mr. Pittman stated that the time would be changed.

A petition is being carried around to all merchants extending the time from 8 to 9 o'clock on Saturday instead of 8 to 7 o'clock.

The time for opening and closing on week days will not be changed, it was stated. The time is from 8 to 5 o'clock. With the addition of four hours on Saturday it will make a 58-hour week.

State Supervisor Is Guest of County Nurse

Miss Eupha Hixson, newly appointed state supervisor of public health nurses, was a visitor in Hope Thursday, coming here to examine reports of Miss Flora Cotton, Hempstead county nurse.

Miss Hixson is formerly of Pope county, serving as health nurse there for six years prior to her appointment as state supervisor of health nurses.

Housewives Asked to Meet at 10 in Local City Hall

Will Be Urged to Support Stores Where NRA Emblem Is Shown

IT GAINS HEADWAY Stores Flocking to NRA Banner in This Community

Hope shoppers will attend a mass meeting at 10 o'clock Friday morning in Hope City hall to hear their share in the National Recovery Act program outlined by speakers, including representative women leaders.

The meeting will be brief and to the point. Shoppers will be asked to demand that places they do business with subscribe to the NRA regulations as asked by President Roosevelt.

Organization of the business houses under the NRA blue-eagle emblem proceeded at a rapid rate following Wednesday's meeting of merchants at the city hall. The NRA posters are taking the town by storm.

Trade committees were busy Wednesday and Thursday persuading the various retail lines to come into the NRA 100 per cent.

As a side-issue on the fixing of a short work-week and a minimum wage, the various trades also made progress on the regulation of opening and closing hours.

Twenty-four grocers were signed up to observe a 7 a. m. to 6 p. m. schedule, 7 to 9 on Saturday, with no Sunday openings.

Among the dry goods retailers, 12 signed to open at 8 and close at 6, with a 9 p. m. closing on Saturday.

Motor Men Meet

The garage owners held an organization meeting at the city hall at 8 o'clock Wednesday night, electing the following officers:

B. R. Hamm, president; Charles Harrell, first vice-president; E. P. Young, second vice-president; E. P. O'Neal, secretary and treasurer.

As outlined by Mr. Hamm, who had previously attended a state-wide meeting of garage owners, the purpose of the local session was to set up a Hope unit of auto service men to co-operate with the state group in carrying out the provisions of the National Recovery Act or the group's code which is now before Administrator Johnson for approval.

No definite schedule of service hours and rates of pay were set up, but two committees were appointed, to report back to a general meeting of the trade.

Twenty-two organizations were represented, practically 100 per cent of the trade in this city.

Oil Code Deducted

WASHINGTON.—(AP)—Oscar Sutro, general counsel and vice-president of the Standard Oil Company of California, Thursday told the recovery administration that the trade code for the oil industry presented by Industrial Administrator Hugh Johnson is no answer to the industry's problems.

Appearing as spokesman for the forces demanding price regulation, against which Johnson took a determined stand, Sutro said:

"This code increases the burden of the industry and does nothing to face and solve the problem of price-fixing."

Union Contracts Stand

WASHINGTON.—(AP)—Recovery Administrator Hugh Johnson ruled Thursday that his administration could not attempt to abrogate contracts existing as a result of collective bargaining between capital and labor.

Employers who find themselves unable to adjust such contracts will be permitted to display the National Recovery (NRA) eagle, if otherwise they conform as much as they can to the wage-rising and employment-increasing movement.

This cleared the way for big employers with labor under contract to join the recovery program.

Meanwhile Recovery Administrator

YOUR CHILDREN

By Olive Roberts Barton

©1933 BY NEA SERVICE, INC.

For Parents for Infants, Should Be

"Prescribed" by the Doctor

The temperature here is officially

32 degrees as I write. On the street it

is as many over a hundred as you

can count on a thermometer.

It is no time to bother with child

training. What every mother needs

to do is to try to keep herself and her

children well and as comfortable as

possible when these extremely hot

waves hit us. And those in the cities

find it next to impossible.

These are the days when the chil-

dren are far better off inside the

house than out of it, unless you hap-

pen to have a shady spot on the lot.

If they do play outside, let it be

in the morning. And if they must be in

the sun, put on hats.

Sun by Prescription

The baby can dispense with his sun-

bath, too, unless the doctor has given

specific directions for a short period

early in the day. I saw one baby be-

ing parboiled the other day and it

made me sick to look at him. He lay

with the sun beating down on him

and a lady who knew his mother said

he would be that way for hours—he

was every day! His mother had the

idea that sun was what he must have,

and sun was what he got.

Not that kind of sun! Not that

much! There is no use going to

extremes and getting faddy about it.

Sun should be the doctor's business,

especially where it concerns babies,

and it should be "prescribed" just as

medicine is prescribed. You cannot

go guessing too much, especially in

extremes of weather.

Perhaps on medium warm days the

long bath doesn't do much damage,

but this should be remembered—be-

fore eleven in the morning and after

three or four o'clock in the afternoon

are the best times, not in the middle

of the day.

Children old enough to trot around

do not stay in the sun continuously as

a rule. They are out and in and

get their sun in broken doses.

Keep House Cool

But hats are best. The rest of the

clothes do not matter. On such a day

as this they don't need any at all for

that matter.

Keep the house dark. If you have

an electric fan in the room where the

children play, it is better to place it

so it stirs the air but does not blow

directly on small bodies at close

range.

Don't undertake too much yourself.

Order has a certain coolness about it

but leave hard cleaning and window

washing and so on for cooler weather.

Temperatures are short. Children say

and do things on hot days they do not

mean. We can do a lot of overlooking

at such times. It is best anyway, be-

cause our own dispositions get hair-

WASHINGTON LETTER

Buying Power to Increase

An Unofficial Estimate

BY RODNEY DUTCHER

NEA Washington Correspondent

WASHINGTON.—Six million per-

sons re-employed by Labor Day may

mean \$6,000,000,000 of increased pur-

chasing power.

There aren't any accurate, compre-

hensive statistics on which to base a

dollars and cents computation of the

result of the NRA re-employment plan

in case it is successful. But amateurs

are making some rough estimates from

the material available.

If 6,000,000 persons are re-employed

next month after the general mini-

um wage-maximum hour code be-

comes effective and they receive the

\$14 minimum wage, they will have

\$84,000,000 a week to spend. Six mil-

lion re-employed is the immediate

NRA goal.

May Be More or Less

NRA economists think perhaps half

of the 35,000,000 employed persons re-

ceive less than the proposed \$14 min-

imum and say 12,000,000 would be a

conservative figure. If 12,000,000 per-

sons received \$2 more a week there

would be an added \$24,000,000 of pur-

chasing power weekly. The total in-

crease by this rough method of com-

putation, would run up to some \$5,-

600,000,000 a year.

The increase might be a lot more.

Or a lot less, if the scheme doesn't

work as well as is hoped.

"Chip" Robert's Peaches

Assistant Secretary of the Treasury

Lawrence W. "Chip" Robert marched

into the White House with a basket

of enormous peaches from his Georgia

farm. President Roosevelt was too

busy to receive peaches.

Did "Chip" leave the peaches? He

did not. He told them off so he could

bring them back again when he could

present them in person.

Farley's Expenses

Southern dries who demand to know

how Postmaster General Jim Farley

financed his trip into the south to

urge repeal of the 18th amendment

probably won't find out. You can't

get an answer from the post office.

Harlee Branch, Farley's executive

assistant, paid his own fare to Mem-

phis, he says. Prohibition Director

A. V. Dalyrimple, who also accom-

panied the party, was on a business

trip "around the circle."

As for Farley, perhaps there was

some "situation" in connection with

the Memphis post office. There usu-

ally is.

Beer at U. S. Hospital

The Army medical corps has put

its okay on the 32 per cent beer. A

20-foot bar with a brass rail has been

installed at the Walter Reed hospital

—the first yet erected on government

hospital grounds.

Doctors, patients and orderlies keep

a couple of bartenders busy.

Underfed Children

In contrast with insistent assertions

from the highest officials all last year

that the depression was making every-

body healthier and healthier, the U. S.

Children's Bureau comes along with

a study showing large increases in

malnutrition among children.

Percentage of malnutrition among

New York school children rose from

13.4 in 1929 to 21.1 in 1932. The Com-

munity Health Center at Philadelphia

reported an increase from 30 per cent

to 42 per cent.

NRA's Printing Bill

The NRA sometimes spends as much

as \$1200 a day on paper for its press

releases alone. The Department of

Commerce mimeographing and mul-

tiplying department works two full

shifts now and employs 130 persons,

of whom 90 are engaged on NRA ma-

terial.

About 7500 copies of every code are

made for distribution, but the biggest

job is the mimeographing of transcripts

of each code hearing.

(Copyright, 1933, NEA Service, Inc.)

Next: Cuffing styles.

Aggressive job-hunter in West Vir-

ginia invaded dentist's office while a

senator was having a tooth extracted

to urge the senator to use his influ-

ence to help him get a political job.

He ought to have known that the den-

tist had the most pull.

It's already clear who will be "The

Forgotten Man" in 1934—none other

than the federal prohibition agent.

Italian claims invention of movie

projector with which movies can be

shown in broad daylight, but refuses

to give details. Trying to keep us in

the dark for a while?

The Roll of Honor

A variation in speed of the genera-
tors, or intermittent ground some-
where on the line, causes electric
lights to flicker, get dim and then be-
come bright again.

If all the rain that fell on the earth
during the course of a year could be
gathered together at one time, it would
cover the entire globe to an average
depth of 29.13 inches.

Delaware is the second smallest
state in the Union; its greatest length
is less than 100 miles and greatest
width less than 35 miles. At one point
it is only nine miles wide.

BARGAIN BRIDIE

by KATHARINE HAVILAND-TAYLOR

©1933 NEA SERVICE, INC.

BEGIN HERE TODAY

ELINOR STAFFORD, 20, falls
in love with Barrett Colvin, 35,
but her jealous, scheming mother
breaks up the romance by con-
vincing Barrett that Elinor is a
heartless flirt.

When Elinor's aunt, wealthy
Miss Ella Sexton, dies she leaves
her fortune to Barrett. Then
drunkard Vance Carter, shoots
Barrett's father, Elinor's father.
Barrett tells Elinor that if she
will marry him and live in his
home as a guest for a year he
will give her the entire Sexton
fortune to divide among her rela-
tives. Knowing the money may
save her father's life, Elinor
agrees.

The marriage takes place. Bar-
rett, in spite of the fact Ella told
him, finds himself more in love
with Elinor than ever. He has a
ward, nine-year-old GERALD
MOORE, who is the son of his
half-sister, MARCIA RADNOR.
Barrett has promised Marcia never
to reveal the boy's true story.

Elinor's father dies. Her mother
discovers the existence of Bar-
rett's ward and tells Elinor the
boy is Barrett's son. When she
asks him Barrett cannot explain
because of his promise to Marcia.
Misunderstandings between Bar-
rett and Elinor increase. They
take a house in the country and
Gerald comes to live with them.
Both Elinor and Barrett are mis-
erable but seem powerless to
straighten out the situation.

NOW GO ON WITH THE STORY

CHAPTER XLVI

BOB TELFAIRE arrived on the

following Friday afternoon.

He was loaded down with a golf

bag, tennis racket, his luggage,

and a deck tennis set he had

brought for Gerald. Barrett,

meeting him at the station, felt

for the first time an impulse of

friendliness toward the younger

man.

"Hi!" Bob sung out heartily.

He'd heard the gossip about Bar-

rett's ward and refused to believe

a word of it. Bob would admit

that Barrett Colvin might be

"dumb" but he wasn't the sort to

be involved in such an affair as

the gossips inferred.

"It was good of you to come

down, Bob," said Barrett. There

was an atmosphere of cordiality

hot sun, wind-swept hills and

baking courts about Bob Telfaire

that was extremely appealing.

"Good of me? Say, how do

you get that way? It was good

of you to ask me. Is that the

youngster in the rumble seat of

"Yes. I suppose there's some

one talk about him?"

"Oh, sure. You know how peo-

ple are! But as I figure it, it

doesn't matter much what peo-

ple say so long as you know the

truth yourself. There are some

people in the world who always

have to have something to talk

Scanning New Books

BY BRUCE CATTON

Of books on Russia there seems to be no end; and the surprising thing is that so many of them are worth reading.

One of the new ones which you could profitably look into is "Russia Day by Day," by Corliss and Margaret Lamont. Mr. and Mrs. Lamont went to Russia in the summer of 1932, made an extensive trip through Leningrad, Moscow, Kazan, Stalingrad and the Black Sea region, looked about them sympathetically and kept up a day by day diary of their experiences.

Their book is not so much concerned with Communist theory, five-year-plans and so on as it is with giving an intimate picture of the everyday life of the Russian people.

The Lamonts found plenty of irritating things in Russia; but they also found that, on the whole, "things were much more comfortable than we had expected." A visitor who isn't too finicky can have a very enjoyable trip through Russia, they report, and he will be able to see what he wants to see and not what the red leaders think he ought to see.

Russia is still far from being a Utopia, they admit. The food situation is bad. General living conditions are by no means satisfactory. But the Lamonts found an air of hope and confidence throughout Russia, a widespread feeling that a fine new world is coming into existence. They believe that the ordinary Russian is far better off than he was under the Czars, and they see no reason to suppose that the Communist experiment is in any danger of breaking down or being interrupted in the near future.

Published by Covici-Friede, this book sells for \$2.

under, Miss Nell Williams, Miss Martha Ann Singleton, Charles Bryant, Foster Finley, Franklin McLarty, Ess White Jr., John Clyde Hill, Thomas Franks and David Waddle. At the conclusion of the games, the hostess served a delightful ice course with cake.

Mrs. Breedlove and children of Harlingen, Texas, are visiting relatives here this week.

Mrs. Gean Taylor and baby of Dallas, Texas are the guests of Mr. and Mrs. G. D. Eley.

Arkadelphia Pays McFaddin Tribute

Hope Man Addresses 7-Club Meeting at Lake Catherine

ARKADELPHIA, Ark.—Sixteen members of the Arkadelphia Rotary club joined delegations from the clubs of Pine Bluff, Sheridan, Benton, Malvern, Bauxite and Hot Springs in an inter-city meeting held at Rogers Landing, Lake Catherine, last Thursday night.

Addresses were made by Ed McFaddin of Hope, past district governor, and Arthur Pope of El Dorado, new governor of the district. The Lawtons, musicians, furnished a program of harp, violin and guitar numbers.

Mr. Pope made a plea for Rotarians to lead in the co-operation of forces with President Roosevelt in the recovery of the country.

After announcing that each criminal costs the state \$11,000, he made a plea for Rotarians to keep in touch with susceptible youth and wherever possible put straying feet back in the path of rectitude.

Mr. McFaddin advised each to lose himself in Rotary service, in making better Rotarians and citizens. He prayed for each to be of good courage and quoted that "Success is failure turned wrong side out." "Don't quit," he said.

He called attention to the fact that Rotary expansion in Arkansas will have to be intensive and within clubs rather than in new clubs, because the club situation has about reached the saturation point. Rotary club expansion has been very rapid in this state with practically every city and town with large enough population now having clubs. He reported there were 104 new clubs in Rotary International taken in last year—a year of great depression. As a member of the international committee on extension, Mr. McFaddin said it was their intention to get 200 clubs the coming year, just double last year's total.

Editorially W. H. Halliburton in the Siftings-Heard said:

"The writer was thoroughly interested in everything that McFaddin said, because it was substantial, fitting, inspiring, but the writer, and we dare say, many other listeners, did not in this feast of plain but eloquent oratory lose sight of the personality back of it. Of course both are one and the

same, as they are intermingled. It's no flattery, but it is our humble opinion that Ek McFaddin is one of the most outstanding Rotarians in the world today, fitted to fill any office in the bestowal of Rotary—we mean that. Why not vision him as president of Rotary International, and let Rotarians of this district look forward to such an event as his election.

"This news writer while listening to his fine talk was hoping that he was a native Arkansan, and so had that hope verified later when it was learned that he was born at Hope, Hempstead county, where he still lives—and proud of it. Arkansas has Ed McFaddin for Rotary International president, for Governor of the state, for Congressman or Senator—he is capable of any of these jobs, in our opinion, and pardon us but we think our opinion is good when it comes to knowing and judging men."

Tokio

M. L. Stewart was a business visitor to Blevins Monday.

Coy Sullivan of Nashville started a singing school at Sweet Home camp ground Monday morning with 35 in attendance.

Tom Jones was a business visitor to Bingen Tuesday.

A MILLION YEARS AGO

That's when this funny-looking animal lived. He's called a dinosau, but before long you probably will be calling him "Dinny" for short. He was only one of many monsters in prehistoric days.

This "Dinny," however, is different. He's a playful and most amusing creature when you get to know him.

NEW STORE HOURS

Dry Goods—Clothing—Department Stores

Week Days

Eight A. M. to Six P. M.

Saturdays

Eight A. M. to Nine P. M.

EFFECTIVE FRIDAY

Co-Operating With Roosevelt

We are in hearty accord with the vigorous action of the President and his proclamation asking for support of the National Recovery Act, bringing more jobs, and increasing minimum pay.

We have either signed to blanket code, or will do so as soon as we can work out details. We pledge ourselves to co-operate to the utmost in effecting this plan for more jobs and better pay, to bring it to a successful conclusion. Which will mean restored prosperity and opportunity for all.

In order to comply with Roosevelt's request, we are observing the above store hours, and employing additional help to limit hours of our present staff to 40 per week.

We are suggesting that Consumers see to it that merchants and employers live up to the code which they sign; and that they do not take advantage of their competitors by violating this code once it is signed.

ASSESS YOUR POLL TAX NOW FOR NEXT YEAR AND

SAVE A DOLLAR

To those who wish a poll tax for next year, and who did not assess at the same time property assessment was made, or to those who have moved into the county, or to those who did not assess for a poll tax for their wife, the tax books will remain open for a few days in order that this assessment may be made.

By making this assessment before the tax books close you can save a dollar, as poll taxes issued next year, but not assessed this year, are \$2.00 each, in place of \$1.00. Office in Court House at Washington.

The Rocky Mound baseball team played a game with Bodewy Saturday afternoon. The score was 6 to 7 in favor of Bodewy. They will play Mt. Moriah here next Saturday afternoon.

Store Hours As Usual

6 A. M. to 6 P. M.

There has been considerable discussion and comment about reducing the hours that Hope places of business observe. We believe this defies the spirit, even if not the letter, of the Recovery Act, as pronounced by President Roosevelt.

We have signed the blanket code of the National Recovery Act. As we understand it, this was designed to give each of us a chance to aid in restoring prosperity. For employees, it suggests a minimum of pay, and a maximum of forty hours of work in our line, for each employe, so that more people may have jobs before winter comes.

A good part of our business is with contractors, who call either before or after their days' work. We feel that if we were to ask them to call during a shorter working day for us, that we WOULD NOT BE DOING OUR PART in creating new jobs.

Therefore we are adding one man to our staff,

and reducing the hours of the present staff to conform to N. R. A. We are not trying to dodge the issue by cutting the hours we remain open. We believe that the only way we can help is to create more jobs, and to increase pay. Wages and salaries were increased more than twenty-five per cent by this firm a month ago. These steps were taken on account of increasing living costs, including increases in the costs of lumber and building materials. No additional increases will be needed to conform.

We believe that the National Recovery Act will not help us to sell more lumber, nor you to sell more of your products, or get more for your services, if employers confine their working day to the MINIMUM as set forth in the blanket code, thus saving the addition of employees. We are going to open our usual hours, and maintain our usual service. We have pledged ourselves to co-operate COMPLETELY to bring back employment.

TO THE CONSUMERS OF SOUTHWEST ARKANSAS

To you who wish to DO YOUR PART, we suggest that you call at our store, or at the place of business of any other member of the N. R. A., and sign your pledge to patronize those firms who are co-operating with this movement which has for its sole purpose the raising of wages and salaries above a set minimum, and of reducing hours of employment so that everyone may have jobs. Only when this objective is gained can you have prosperity—or can we have prosperity. We believe this holds true what ever line of work or business you may be engaged.

Gulf Refining Co. Signs NRA

ALL AGENTS, DISTRIBUTORS, SALESMEN, SPECIAL MEN, DISTRICT SUPERVISORS, ENGINEERS, SERVICE STATION SUPPLIES, COMMISSION OPERATORS, OFFICE EMPLOYEES, GULF REFINING COMPANY Gentlemen:—

This is to advise that the GULF REFINING COMPANY and all affiliated Gulf Companies have signed the PRESIDENT'S RE-EMPLOYMENT AGREEMENT pending the final adoption of the Oil Industry Code which is now being considered in Washington.

There has been considerable agitation in some places to induce our local agents to sign this agreement locally. In view of the fact that this Re-Employment Agreement has been signed by the proper officials of our Company in Pittsburgh we do not deem it necessary for our local agents to sign the President's Re-employment Agreement again locally but should you receive any request that this be done you can explain that the Company has already signed up but if that does not satisfy the party then write us giving us full particulars.

You will understand, of course, that this applies only to the President's Re-employment Agreement and does not refer to any so-called codes that may have been drawn up by local individuals engaged either in the oil or affiliated business, for having signed the President's Re-employment Agreement we, of course, do not deem it necessary to sign any so-called local codes.

We would suggest that you give this information publicity through your local newspapers where possible and through all of our service station and other employees.

As regards to what you are to do to carry out the provisions of this agreement you will be notified in a separate letter as speedily as possible.

Yours very truly,
W. J. Te Balle

IOWA'S BOOM

(Continued from Page One)

People feel better. They feel good about the way, and that we'll share in 'em. We ought to, with the same we got."

Postmaster Yoder, who also operates the store, is awaiting word from the other NIRA in Washington as to what is expected of him in the way of salary increases and increased employment.

Two daughters and a son help him with the store, he says, and one daughter, Orpha, serves as assistant postmaster. But Yoder faces a real dilemma when it comes to increasing employment.

"I don't see how I can very well put anyone else at work at the store," Yoder laments. "Because there is no work else on hand to be put to work. But I want to do whatever I can."

The Rush In—and Out

Once there was a cheese factory at Nira. Those were the days! And there was the great coal rush of '32. Workmen digging a well struck what they thought was a six-foot vein of coal. It was a second Klondike! But the boom collapsed when they found that whatever that six-foot vein might have been it wasn't coal. The promoters, the prospectors, the settlers, vanished, and then the cheese factory vanished, too.

Nira, disillusioned, sank back to the condition that President Cleveland described as innocuous desuetude. Since 1902, then, Nira quietly resigned itself to watching its walls sag, its siding warp, its paint flake off, forgetting the outside world, and by that world forgotten.

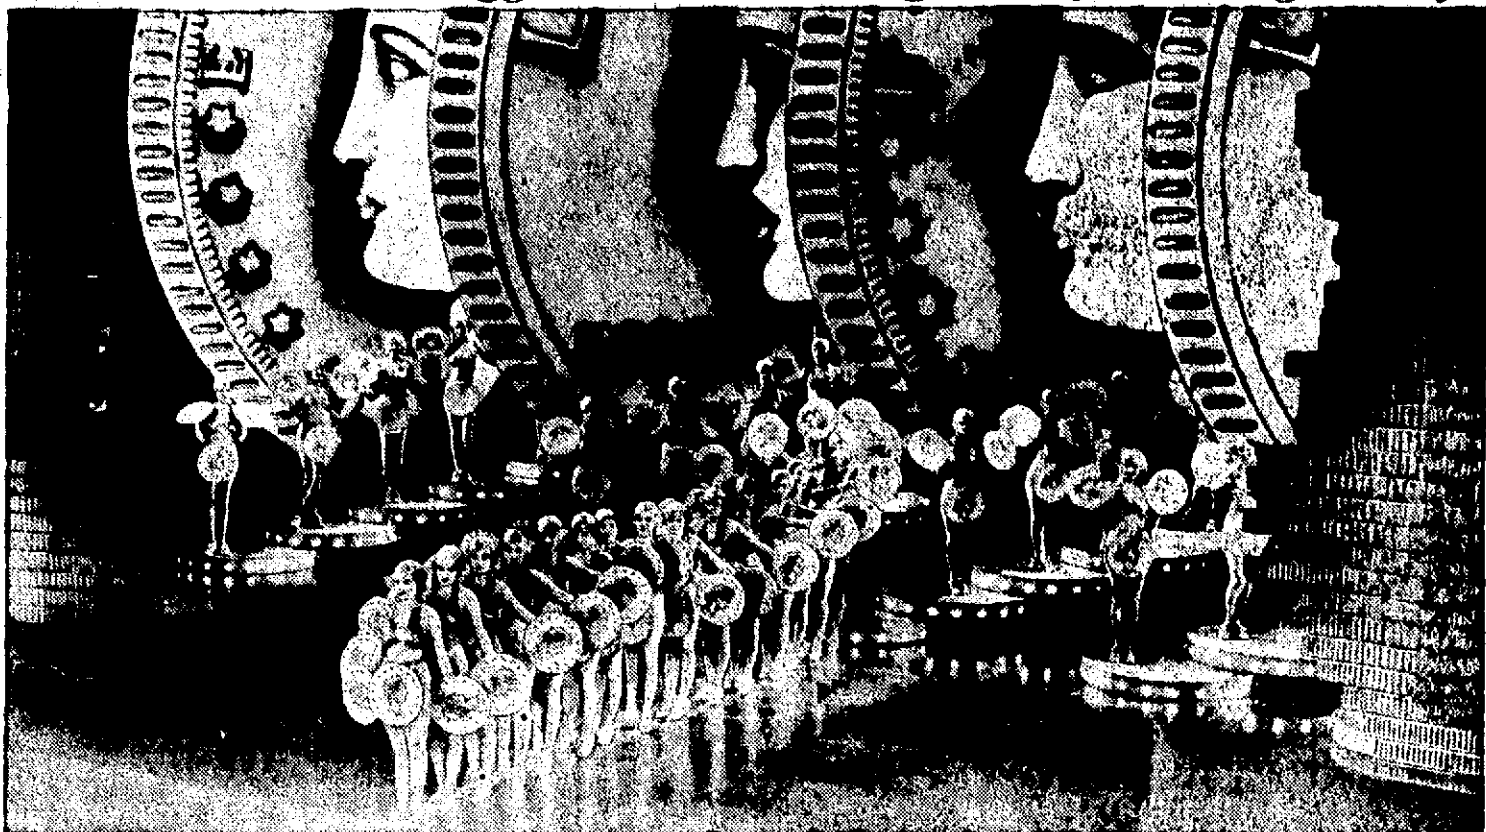

The First Nira—a Puzzle

Eight families, 20 inhabitants, five of them children. That is the town whose name is more often in the papers today than that of any other.

John Whetstone reflectively watched a white shaving curl up under his knife and drop to the ground. He recalled how he came to Nira and helped build the first house there, 55 years ago. He came from Indiana in a wagon train. "We stopped here because land was cheap," he said. "It's still cheap."

Nira was named for Nira Moffitt, the first white child born in the neighborhood. Whetstone seems to recall. Or was it the other way—was Nira Moffitt

A Scene from "Gold Diggers of 1933" at Saenger 4 Days, Starting Sunday

named for the town? Nobody remembers.

SHOPPERS' RALLY

(Continued from Page One)

Johnson continued his efforts to bring peace to the southwestern Pennsylvania coal fields, with a conference with operators and representatives of the unions scheduled for late Thursday afternoon.

The United States paid Panama \$10,000,000 for the Canal Zone rights, but this does not include an annual rental of \$250,000.

A seaplane can rise from slightly rough water more easily than from a calm surface.

Banks Are Placed Under NRA Code

14,000 Members of U. S. Association Signed as a Group

WASHINGTON.—Fourteen thousand banks of the country Wednesday went under federal control of hours and wages for their employees.

The American Bankers' Association, negotiating with Gen. Hugh S. Johnson, National Recovery administrator, obtained blanket authority for its 14,000 members, with several hundred thousand employees, to enter immedi-

ately upon a modified form of the president's re-employment agreement.

The way also was opened for 6,000 other banks, not members of the association, to sign up under the modifications, and thus all the nation's temples of finance may be plastered with the increasingly familiar blue eagles of N. R. A.

During the day similar authority to operate under modified forms of the president's agreement was granted also to five other large industries. The industries were: electrical manufacturers, radio manufacturers, rayon weaving industry, bedding industry, rayon and synthetic yarn producing industry.

Officials declared that the new orders, which follow closely upon similar concessions made to grocers and other retailers, will result in granting new employment to at least 100,000 of the idle, and will increase wages in those industries substantially. In each case, it was emphasized, permanent codes will be called for hearings promptly.

Work to Begin on 22 Fighting Ships

Roosevelt Approves Just as Japan Enlarges Her War Fleet

BULLETIN
WASHINGTON.—(P)—The Navy Department Thursday awarded contracts to the lowest responsible bidder for 22 new naval vessels. Some 44,000 employees will be affected.

HYDE PARK, N. Y.—(P)—President Roosevelt Wednesday night approved plans of the navy for construction of 21 new war ships in the \$238,000,000 building program.

The president analyzed bids recently received by the navy and the allotments decided on by the commanders. His approval signalled an immediate start on work providing jobs for thousands in government and private shipyards.

The start of America's huge naval constructions comes just after word from Japan of the start of a building program there. It is intended to give the American fleet the strength allowed under existing naval limitations agreement.

Both Republicans and Democrats in congress have urged that the American fleet be built up to the terms allowed by the London agreement. About \$46,000,000 is to be expended this year and a total of \$238,000,000 over three years.

Home Loans for Distressed Only
State Manger Milwee Begs Others Not to File Useless Petitions

LITTLE ROCK.—There seems to be some misunderstanding as to the purpose of the Home Owners' Loan Corporation, says Frank Milwee, state manager. Hence much of the time of those who are administering the relief is taken up with people who cannot be helped.

The purpose of the act is to give

Rundown in Health
Means Rundown in Blood!
Blood is life. Blood is everything. When blood gets thin or poor you feel it in a dozen different ways. Appetite fails, strength ebbs and you become weak and depressed.

To build up your blood, take Grove's Tasteless Chill Tonic. It contains iron which makes for rich, red blood. It also contains tasteless quinine which tends to purify the blood. Thus you get two effects of great value in any rundown condition. Taken regularly for a few days, Grove's Tasteless Chill Tonic will soon have you back on your feet. It will improve your appetite, increase your strength and vitality and put color in your cheeks. For half a century, Grove's Tasteless Chill Tonic has been a source of strength and energy for young and old. It is pleasant to take and contains nothing harmful. Get a bottle today and enjoy real health. Sold by all stores. —Adv.

relief is for home owners only and does not apply to any other class of property. It must be shown that the property is the home of the applicant and that he wishes to retain it as a home. Under no circumstances can the corporation make loans on rental property, public property or property acquired for speculative purposes.

The owners of all such property should be advised not to make application as it will only serve to clutter up the files of the Home Owners' Loan Corporation, consume the time of the employees and contribute to further delay in handling distressed loans which come within the provisions of the act.

Federal Budget Is Still in the Red

107-Million Loss in July —But Deficit Is Declining

WASHINGTON.—(P)—The federal government spent \$107,000,000 more than its income during July, the first month of the new fiscal year.

Despite a reduction in ordinary expenditures of \$155,000,000 under the amount for the same month of the previous fiscal year, the month-end statement for July showed that \$12,000,000 more was spent for normal maintenance of the government than was collected from taxes and other sources of income. Emergency expenditures of \$75,000,000 completed the figure for the month-end deficit.

During the month, some of the governmental economies contemplated by President Roosevelt had gone into effect, but the full savings from his complete program will not be felt for some time.

Under its new method of listing ex-

Renew Your Health By Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs—once or twice a week for several weeks—and see how Nature rewards you with health.

Calotabs purify the blood by activating the liver, kidneys, stomach and bowels. In 10 cts. and 35 cts. packages. All dealers. (Adv.)

penditures, the Treasury separated moneys spent for normal governmental purposes from those used in emergency activities. Total ordinary expenditures were \$195,617,968. Emergency expenditures were \$75,382,742.

On both income and expenditures, improvement was shown in the government's financial position. Revenue increased \$75,449,000 over July of last year, while the expenditures, reflecting the sharply reduced spending under the economy program, were \$155,000,000 lower.

Harry Kyler Visiting Chicago World Fair

A postcard to The Star Thursday from H. O. Kyler, manager of the Union Compress & Warehouse Co., who is sojourning at the Chicago

World Fair, advised as follows: "If you come up here you had better bring a couple of extra pair of feet with you."

Writing from the safe distance Illinois' largest city, Harry went solicitously: "How is Papa O'Ne these days?"

Reply: All's quiet on the Southern front.

A Freshman from the Amazon Put his nibbles on his Gramazon: "The reason's that He was too fat To get his own Tajamazon."

Office Boy: "Please, sir, can I attend my grandmothers' funeral on Friday?"

Employer: "Certainly. That's the day I've just fixed for the firm's annual staff picnic."—The Humorist.

Reach for
a Lucky

—for always
Luckies
Please!

Really, how can so fine
a cigarette cost so little?

Well, you folks have a lot to do with it. You, and the millions of people like you, who prefer Luckies, to whom Luckies are a personal thing. Your approval enables us to buy our fine tobaccos and produce our cigarettes in great volume. For instance, instead of buying from hand to mouth, we have a reserve of over

\$100,000,000 worth of the world's choicest tobaccos. Truly, we could not tell you how much Luckies would cost if only a few of them were sold. Frankly, it is your faithful and overwhelming patronage that enables us to offer you the quality of fine tobaccos and the purity of "Toasting"—at a very moderate price!

because "It's toasted"
